Reasons for Allowance

1. Claims 1-3 and 5-31 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The claims include the limitation of selecting a lock for a first processing unit based upon at least some of the first and second system-wide measures of read and write acquisitions, and releasing said lock responsive to a change in at least some of said measures wherein releasing said lock includes switching said first processing unit to a different lock, which is not shown by the prior art of record in the combination as disclosed and claimed. The Examiner interpreted the claims in light of the specification and further in view of Applicant's persuasive argument that the amended claims provides that "*a lock is acquired by a processing unit, released, and the processing unit switches to a different lock in response a change in at least some of the system measures*" (page 8 of the Remarks).

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
